PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science student at NIAT with a strong interest in Software Development, Artificial Intelligence, and Product Innovation. Passionate about building technology-driven solutions through web development, AI applications, and collaborative project work.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science Engineering
National Institute of Advanced Technology (NIAT) | Expected Graduation: 2029

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript, C++, SQL
Web Technologies:	HTML, CSS, React.js, Node.js, REST APIs
Databases:	SQLite, Firebase, Supabase
AI & Tools:	Generative AI, Prompt Engineering, OpenAI APIs, Google Gemini APIs, Git, GitHub, VS Code

PROJECTS

IdeaForge AI - AI-Powered Business Idea Viability Analyzer
- Evaluates business ideas using natural language input, feasibility scoring, and risk assessment.
- Generates viability scores, structured summaries, and Shark Tank-style investor feedback simulations.

Breakpoint Library - Engineering Failure Knowledge Exchange Platform
- Centralized platform for documenting and sharing engineering project failures to learn from mistakes.
- Encourages knowledge sharing, innovation, and collaborative problem-solving.

CampusFlow - Smart Campus Management Platform
- Streamlines student activities, improves campus communication between students and faculty.
- Facilitates efficient resource management with a focus on accessibility and user experience.

LEADERSHIP & COMMUNITY

Google Developer Community Member (2026 - Present)
- Active participant in technical workshops, developer events, hackathons, and community programs.
- Presented technical projects in ideation and innovation challenges.

LANGUAGES & INTERESTS

Languages: English, Telugu, Hindi
Interests: Artificial Intelligence, Software Development, Hackathons, Problem Solving, Innovation, Photography
